

# Lesson 10.2 Ordered Pairs

Use the grids to complete the items below.

Refer to the grid on the left. Tell what point is located at each ordered pair.

**a****b****c**

- |    |              |              |              |
|----|--------------|--------------|--------------|
| 1. | (3, 5) _____ | (4, 0) _____ | (8, 5) _____ |
| 2. | (2, 7) _____ | (5, 6) _____ | (1, 1) _____ |

Refer to the grid on the left. Write the ordered pair for each point.

- |    |           |           |           |
|----|-----------|-----------|-----------|
| 3. | A (_____) | C (_____) | D (_____) |
| 4. | G (_____) | I (_____) | J (_____) |

Plot the points on the grid on the right. Label the points.

5. Create point M at (3, 2).    Create point N at (6, 5).    Create point O at (1, 8).
6. Create point P at (2, 6).    Create point Q at (7, 4).    Create point R at (4, 8).
